4 May 1961

MEMORANDUM FOR: Mr. Eugene Kiefer, DPD/SA/Technical Analysis

STAT

SUBJECT: The [] Lens by []

STAT

1. Attached hereto is a copy of the report by []
[] on the subject lens by [] It is called to your
attention because of the dramatic quality improvement this
lens seems to offer. I thought that you and Mr. RMB might
find in it something that could either be immediately useful
or suggestive to Rod Scott in his ongoing efforts for the
company.

2. After you have finished reviewing these materials,
particularly the photos, I would appreciate it if you
would return them to our files. I have also determined
that the camera which carries this lens costs something in
the vicinity of \$1,000. It would seem worthwhile to me if
NPIC bought one of these cameras for local in-house experi-
mentation. Your comment on this latter point will also be
appreciated.

A. C. LUNDAHL
